SECTION E — Reading Comprehension & English Language (Q.126–150, 2 marks each)

Passage 1 • Read the passage carefully and answer the questions that follow

Assam, located in the north-eastern part of India, is home to some of the richest biodiversity in the country. The Brahmaputra river, which flows through the length of the state, has shaped both its geography and its culture for centuries, depositing fertile silt that supports agriculture and creating numerous river islands, including Majuli. The state's forests and wetlands shelter the one-horned rhinoceros, a species that once faced the threat of extinction but has recovered steadily due to sustained conservation efforts inside protected areas such as Kaziranga. Alongside its natural wealth, Assam is known for its tea gardens, which have supplied a large share of India's tea production since the nineteenth century and continue to provide employment to a large section of the rural population. In recent decades, the state has also worked to expand education, healthcare and digital infrastructure, aiming to balance economic development with the protection of its fragile ecosystems.

Answer questions 126 to 137 based on Passage 1 above.

Passage 2: Read the passage carefully and answer the questions that follow

Government recruitment examinations in India have increasingly moved towards a standardised, transparent format designed to test candidates fairly across large and diverse applicant pools. Such examinations typically combine sections on general awareness, reasoning ability, language skills and basic numeracy, since these areas are considered essential for most entry-level administrative and support roles. Negative marking is often introduced to discourage random guessing and to reward candidates who have genuine command over the subject matter. Thorough preparation for these examinations usually involves reviewing the prescribed syllabus in detail, practising previous years' question papers where available, and taking timed mock tests to build both speed and accuracy. Candidates are also advised to stay updated on regional and national current affairs, as questions drawn from recent events are common in the general knowledge section of most competitive examinations.

Answer questions 138 to 150 based on Passage 2 above.
